Syrian Virtual University

### Skills, Trainings, and Competencies

- Montessori course (0-6 years),  
Rwaq Platform
- TOT course  
Qudrat Training Foundation/Syria.
- High experience in research methodology and research preparation
- Remote teaching of different topics including science and learning skills (time management and goal setting)
- Excellent organizational skills, management, planning, and implementation.
- **Let's Read Contest** | may/ 2021 –july/2021  
The Let's Read competition was launched for children from 6 to 15 years old to encourage children to read printed books and develop their language. I opened a book lending library where subscribers have to read 30 children's stories within 30 days. And I networked with several parties to support the initiative in the countryside of As-Suwayda. The competition concluded with honoring the children in a party on the stage of the Arab Cultural Center in ALMazraa.
