Profile Summary

- I am a passionate and professional educator with nearly 4 years of experience teaching English, Science, Mathematics, and Biology.
- I am native English speaking.
- I have experience in a wide range of educational environments in teaching adults, teenagers, and children.
- I have excellent experience in British, A-Levels, GCSE, IB, Common Core American Standards, and STEAM-based education standards and principles.
- I am skilled in creating unique teaching methods to ensure each student's engagement to promote their individual academic and social skill development.
- I have remarkable experience in education material development, lesson planning, and lesson presentation.
- I have profound knowledge of natural science, mathematics, and agriculture.
- I have a proven track record in guiding numerical and analytical skill development in children of all ages.

Academic Details:

- IELTS Score: 8.5
- 2021 (current) – MSc. Animal Science, University of Stellenbosch, West Cape, South Africa
- BSc. (Biological Science Hons.) in Animal Science from University of Pretoria, ZAR in 2010
- 12th from Hoërskool Erasmus, Bronkhorstspuit, ZAR in 2005

Organizational Experience:

Jan '20 – current with UAE University as Research Assistant (Al Ain, UAE)

I am currently working as a research assistant at the UAE University in the Veterinary Department. My research is aimed at the joint health of camels. My job requires a dedicated focus toward literature review, scientific writing, supporting students in laboratory research, managing and actively conducting laboratory research.

Sept '19 – Dec '19 with The Study Room as Secondary School Teacher (Dubai, UAE)

The Study Room offers skill development and language learning to students aged 4 to adults. I tutored Mathematics and Science students from the age of 7 up to 17 (Gr 2 to Gr 11) following the British Curriculum, International Baccalaureate (IB) Curriculum, and the Common Core American Standard Curriculum. I was responsible for creating study material, study summaries, and lesson plans. I tutored students from various nationalities, with a brought spectrum of different individual needs, ranging from students who want to obtain an A+ to students with learning difficulties such as diagnosed ADHD. I also conduct student evaluations to determine a student's current proficiency level. Accordingly, I planned, execute or recommend an appropriate tutoring/learning program to meet the student's needs and goals. I conduct sessions to help students improve their concentration abilities through using the Play Attention software, created by NASA, as a brain exercising tool to improve attention span.

- Developed and implement new mathematic learning material.
- Create Science and Mathematics easy to use study summaries.
- Conduct Student evaluation.
- Coordinated Play Attention sessions to improve student's attention span.
- Couched study skills.
- Create individual lesson plans.
- Support Homework

Sept '19 – Dec '19 with The Staff Room as Supply Teacher (Dubai, UAE)

The Staff Room connects substitute teachers with schools all over Dubai. I worked as a substitute teacher in Brighton College Dubai, American International School, and Universal American School. I covered classes for Mathematics, Introduction to Physics, Biochemistry, English, Genetics, and Moral Education. I efficiently manage classrooms with a total number of students ranging between 8 to 36 pupils. I taught boys-only, girls-only, and mixed-gender groups from Gr. 5 to Gr. 12. When lesson plans were provided, I followed the lesson plan diligently and ensure efficient learning through providing student support and an optimal learning environment through efficient classroom management. When lesson plans were not provided, I created lesson plans aligned with the school's curriculum standards and taught the lessons accordingly. I taught students following the British Curriculum, the International Baccalaureate (IB) Curriculum, and the Common Core American Standard Curriculum. I also assist The Staff Room with administration duties, marketing expo's, and business development.

- Science Lab Technician
- Create lesson plans for Mathematics, Biochemistry, Physics, English, Genetics, and Moral Education.
- Efficient Classroom Management.
- Create an ideal learning environment.
- Flexible in teaching different subjects and different grades on short notice.
- Science lab technician.

Aug '18 – July '19 with Veeburg Livestock Production (Gauteng, SA) as Livestock Production Specialist

Sept '17 – July '18 with Olioli Dubai as Imaginator/Play Therapist (Dubai, UAE)

- Guide children through the learning opportunities for each gallery and exhibit.
- Educated children through a STEAM based approach, age 2 to 12.
- Facilitate and manage exhibit spaces and components.
- Manage groups of children (ranging from 5 to 40 children) during school field trips, birthday parties, and summer camp activities.

July '16 – Aug '17 with Scimatics Solutions as Science & Mathematics Teacher (Gauteng, SA)

- Private and semi-private tutoring of Science, Mathematics, Biology, and Accounting to student between the age of 14 to 17 (Gr. 8 to 11).
- Design and develop study material related to each student's learning needs.
- Assed children's academical level of understanding in Science, Mathematics, Biology, and Accounting.

Jan '13 – March '17 with Justic Investments 101 Cc as Technical Advisor (Mpumalanga, SA)

- Provide technical and scientific support to clients to improve animal production.
- Educate farmers on scientific concepts relating to agriculture, animal production, and animal nutrition.
- Managing partner with full responsibility for sales, profit/loss, and operations.
- Established and successfully grew business relationships with product manufacturers and end users of feed for broilers, layers, horses, cattle, and sheep

Jan '11 – Dec '12 with University of Pretoria SA as Scientific Nutrition Trail Coordinator (Gauteng, SA)

- Designed and executed feed trials specific for broiler chickens.
- My responsibilities included trial design and execution, including laboratory work such as mycotoxin analysis, gizzard erosion scoring, carcass analysis.
- Design and executed trials relating to broiler husbandry practice such as the impacts of lighting, house temperature & humidity, and litter quality.

Dec '09 – Dec '10 with University of Pretoria as Professor Assistant (Gauteng, SA)

- Facilitate first-year student's dairy farm practicals.
- Educating and facilitating first-year Animal Science students
- Staff management and delegation of duties.
- Responsible for record keeping, data collection, artificial insemination, and pregnancy diagnosis of cattle.
- Directly involved with heard health and calf management.
